

NAME

TROPHIC LEVELS AT ISLE OF WIGHT ZOO

Find out what each animal eats and work out which level of the food chain it is at.
Remember: **herbivores** eat plants; **carnivores** eat other animals; **omnivores** eat plants and animals;
detritivores eat waste materials and dead plants/animals.

Primary Consumer (herbivore or omnivore)	Secondary Consumer (carnivore or omnivore)	Decomposer (detritivore)
