The Wildheart Café is proud to have launched an exclusively vegetarian menu and become one of the first major animal attractions in the UK to do so.

As a sanctuary for rescued animals that strives to protect the environment not serving meat or fish in our café is something that our staff and many of our members and visitors feel passionately about.

We know it is a bold decision, but we have worked hard to create a menu that we hope will encourage people to try new dishes and enjoy different culinary experiences – we want our new dishes to be as loved by our visitors as much as the old menu.

As ever we welcome your feedback. Thank you for your ongoing support.

*Together we can make a difference.*
